

## ALEX BAU

(Credo / Germany / alexbau.de)

***„The whole party is like a movie, and while you guys on the dancefloor are the mainactors, I am just delivering the soundtrack...” (Alex, 2010)***

We could tell you stories about glory and fame for ages. How great his far more than 100 productions and remixes for labels like Credo, CLR, Sino and many others are. That he is touring the globe from Buenos Aires to Tokyo. That he has got the ability to rock a small crowd in a place like, let`s say Tresor, as well as playing „music for the masses“ on events like Loveparade, Nature One or Rave on Snow. No matter if inside or outside, warm or cold, day or night... That he has been voted amongst the best DJ`s in Germany for a couple of times. Blablabla... Or we simply take a look on a small excerpt of what people say who have been able to experience Alex` definition of „Gringotechno“ :-)
