

An exhibition showcasing the work of
two individual artists and one association

Vincent Girardin «Jardin d'images»

Photography on Wood

Roaming alongside lakeshores and mountain ridges, Vincent loves to reveal and share the subtlety and the raw beauty of nature in his printed images on various supports and shapes. Superimposing images on natural materials ensures that every piece is unique and serves to enhance each piece's connection to the natural world.

Linéa Sandström

Paintings

Abstract, colorful canvases which draw on the themes of joy, energy and purity. Linéa uses a variety of styles and techniques (oil and acrylic on linen canvas) to present a series of paintings which celebrate the energy of life and the power of nature.

SKIBROA Association

Furniture and objects

This project focuses on extending the life of used skis and snowboards. Through a process of re-&upcycling, SKIBROA creates original and practical indoor and outdoor furnishings and purposeful objects. The association encourages creative innovation and leads searches that seek solutions for used equipment otherwise destined for destruction.
